Jennifer Johns came to Inspiration Media because she wanted a website that would enable her to expand her career as a singer. Because she is an independent artist, she wanted to use her website as a promotional piece to get her widespread exposure. She also wanted to be sure that when she selected a designer to build this site, she would be able to get a high quality design without having to spend a fortune. Time was also a concern; Jennifer needed the site to be launched within 2 weeks.

Inspiration Media was able to meet all of these needs. Jennifer Johns has an undeniable talent, but having a great voice alone is not enough to succeed in the music industry. However, Jennifer was able to utilize her website to get her voice heard by the right people. Within three weeks of the launch of JenniferJohns.com Jennifer was able to get the exposure necessary to be picked up by a 6 week European tour where she performed with major artists such as Mary J. Blige, Talib Kweli and Dilated Peoples.
