

## IM Job Opening – Back End Developer

Type: Independent Contractor

Compensation: Hourly. DOE

Duties: Back End Programming and HTML code generation.  
The right candidate for this position will have experience with HTML, CSS, JavaScript, PHP and MySQL.

This position will include taking a Photoshop prototype of a layout and creating the HTML template for the site.

Hours: Varies. If your application is accepted to be on file with IM as contractor, we will notify you of projects as they become available. You can then accept projects as your time permits.

Location: Berkeley. You will be based out of the Berkeley office, however, because this is a contract position, you can be located anywhere in California as long as you are able to FTP your work to a drop on our servers.

To apply for this position, please send an email to:  
[employment@inspirationmedia.com](mailto:employment@inspirationmedia.com).

Be sure to include your resume, hourly rates and URLs.
